

Talisman

Plascoat Talisman, a hard wearing, tough, long lasting, plastic coating

Developed by Plascoat, the world leader in thermoplastic powder technology, Plascoat Talisman is a high performance coating powder that is comparable to nylon powder. In many aspects Talisman outperforms nylon and is a popular choice with industries looking to reduce their material costs but at the same time improve the quality of their coated products.

Plascoat Talisman 10

Plascoat Talisman 10 is ideal for coating dishwasher baskets

Operational

- Higher resistance to staining and yellowing than nylon
- Will significantly outlast nylon in terms of dishwasher wash cycles
- Excellent resistance to dishwasher chemicals and salt spray
- Complete EU and FDA (Food and Drug Administration) food contact approval
- RoHS (Restriction of Hazardous Substances) compliant
